RISHI DUSANE

Software Engineer | Java | Spring Boot | REST APIs

+91-9834080685 · rishidusane5@gmail.com · LinkedIn · GitHub · Pune, Maharashtra

PROFESSIONAL SUMMARY

PG-DAC graduate specializing in Java and Spring Boot backend development. Built two production-grade systems featuring JWT authentication, RBAC, 15–20+ REST APIs, and tested with JUnit 5 and Mockito. Experienced with MySQL, MongoDB, Hibernate ORM, and API documentation via Swagger/OpenAPI. A disciplined problem-solver seeking an entry-level software engineering role to contribute from day one.

TECHNICAL SKILLS

Languages: Java 21, Python, C#, C++
Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate ORM, FastAPI
Databases: MySQL, MongoDB, SQLite
APIs & Auth: REST API design, JWT, RBAC, Swagger / OpenAPI 3.0, Bean Validation, Postman
Testing: JUnit 5, Mockito, Integration Testing
Tools: Git, GitHub, Maven, Gradle, Linux basics

PROJECTS

TripSync — Travel Booking Backend

Jan 2026 – Feb 2026

Tech: Java 21 · Spring Boot · Spring Security · MySQL · MongoDB · JWT · Maven github.com/RishiDusane/TripSync

- Designed a multi-service backend (User, Booking, Payment, Notification, API Gateway) with 20+ REST APIs, structured request/response models, and centralized error handling.
- Optimized database performance using query indexing and analysis; combined MySQL for relational data and MongoDB for flexible storage.
- Secured APIs with JWT-based authentication and role-based access control (Admin, Agent, User) via Spring Security; documented all endpoints using Swagger/OpenAPI 3.0.
- Achieved reliable test coverage for core flows using JUnit 5 and Mockito (unit and integration tests).

Prime Properties — Real Estate Management System

Jan 2026 – Mar 2026

Tech: Java · Spring Boot · Spring Security · MySQL · Hibernate ORM · JWT · React.js github.com/RishiDusane/PRIME-PROPERTIES-FULLSTACK

- Built a full-stack real estate platform with 15+ REST APIs following layered architecture (Controller, Service, Repository).
- Implemented DTO-based validation and global exception handling, ensuring consistent and reliable API responses across all endpoints.
- Resolved N+1 query problems and improved database performance using Hibernate JOIN FETCH and @EntityGraph annotations.
- Set up JWT-based auth and role-based access control for Admin, Agent, and Buyer roles; covered core backend logic with JUnit 5 and Mockito tests.

EDUCATION

Post Graduate Diploma in Advanced Computing (PG-DAC)

Jan 2025 – Jan 2026

IACSD – Institute for Advanced Computing and Software Development, Pune | Score: 68.3%
Coursework: Java, OOP, DSA, RDBMS, Spring Boot, Microservices, OS, Computer Networks

Bachelor of Engineering – Mechanical Engineering

Jun 2017 – Jun 2021

Dr. D.Y. Patil School of Engineering, Pune | CGPA: 7.91
Career break (2021–2025): Prepared for UPSC Civil Services — developed analytical thinking, structured problem-solving, and sustained self-discipline.

ADDITIONAL INFORMATION

Problem Solving: Active on LeetCode — regular practice in arrays, strings, sorting, and core DSA
Languages: English (Professional), Hindi (Fluent), Marathi (Native)
Hobbies: Non-fiction reading (productivity, psychology, tech), fitness/gym, outdoor sports
