RISHI DUSANE

Software Engineer | Java · Python · Node.js · REST APIs · Cloud & SaaS
Pune, Maharashtra • +91-9834080685 • rishidusane5@gmail.com • github.com/RishiDusane • linkedin.com/in/rishidusane

PROFESSIONAL SUMMARY

Software Engineer with a PG-DAC (CDAC) and proven experience across Java, Python, and Node.js. I design and ship RESTful APIs, secure auth systems, NoSQL and relational database schemas, and containerized microservices — built to handle real-world scale. I bring strong foundations in object-oriented design, Agile workflows, and Generative AI integration, with a mindset focused on clean architecture and long-term maintainability. I'm at my best when building backend systems that quietly power great user experiences.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, C++, C#
Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, FastAPI, Express (Node.js), REST API Design, Microservices, JWT, RBAC
Databases: MySQL, PostgreSQL, MongoDB, SQLite, SQLAlchemy
DevOps & Tools: Docker, Docker Compose, GitHub Actions, Git, Maven, Postman, Swagger / OpenAPI, AWS (S3, EC2 — exposure)
Frontend: React 18, Vite, Axios, HTML, CSS, JavaScript
Testing: JUnit, Unit Testing, Integration Testing
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Networking
AI & Methodologies: Generative AI (Google Gemini API), Agile / Scrum, REST API integration

PROJECTS

TripSync — Microservices Travel Booking Platform Jan 2026 – Feb 2026
Java 21 · Spring Boot · Spring MVC · MySQL · PostgreSQL · JWT · Docker · GitHub Actions | https://github.com/RishiDusane/TripSync

- Architected 5 server-side Spring Boot (Java) microservices — Bookings, Users, Payments, Notifications, and API Gateway — applying OOP and RESTful API design principles end-to-end
- Designed and implemented 20+ REST API endpoints with input validation, centralized exception handling, and JWT-based authentication enforcing RBAC across Admin, User, and Agent roles
- Optimized MySQL query performance using EXPLAIN analysis; added indexes on foreign-key and filter columns and normalized redundant tables, reducing slow-query latency significantly
- Achieved ~75% service-layer test coverage with JUnit; documented all APIs with Swagger; containerized the full stack with Docker Compose and automated CI builds via GitHub Actions

AI Interview Copilot — Resume-Aware Interview Simulator Feb 2026 – Mar 2026
Python · FastAPI · Google Gemini API (Generative AI) · React 18 · JWT · SQLite · SQLAlchemy | *github.com/RishiDusane/ai-interview-copilot*

- Integrated Google Gemini Generative AI API into a FastAPI backend that parses uploaded resumes and generates personalized interview questions; async handlers maintained sub-2-second response times
- Implemented robust error handling with fallback parsing so the API returns structured error responses instead of 500s on unexpected Gemini output — improving reliability for end users
- Built full authentication flow: registration, email verification, bcrypt password hashing, password reset, and JWT-protected routes across both FastAPI and React 18 frontend
- Separated business logic into a clean service layer, making the Generative AI integration modular, independently unit-testable, and straightforward for cross-functional collaborators to extend

PROBLEM SOLVING

- Solved 50+ LeetCode problems covering arrays, strings, and SQL queries; solid grasp of time and space complexity analysis
- Proficient with SQL queries involving joins, aggregations, subqueries, and filtering — applied directly in production project database work

EDUCATION

Post Graduate Diploma in Advanced Computing (PG-DAC) 2026
IACSD, Pune | 68.3%
Bachelor of Engineering — Mechanical Engineering 2021
Dr. D.Y. Patil School of Engineering, Pune | CGPA: 7.91

TECHNICAL TRAINING

- Completed CDAC's PG-DAC — 6-month postgraduate program covering Java, Data Structures & Algorithms, RDBMS, OOP, Operating Systems, and Networking
- Built and submitted assessed backend projects using Spring Boot, microservices architecture, and MySQL as part of the CDAC curriculum
